Yee, I do." he answered, and then the conversation came to an end and was not rouned till danner than.

On the following morang at it e'dock Staters, who had managed to get a few days leave from his employers, arrived with his John Short to take Augusta and Lady Heimhurst—who was going to the peron har—to Somerset House, whither natwritistanding her objections of the pravious day she had at last consented to go. Air Short was introduced and much impressed both the lades by the extraor dinary are of learning and command which was stamped upth his command which was stamped upth his command of the quite enough to have her shoulders at once that day. With a sigh and a thake of the head at her ourse sonableces Mr both Short submitted, and then the carriage camb round and they were all drives off to Sequence House Presently they were there and effer threading lemmanable chilly pas sages reached a dispart roots with an at manage a drivy deal tables and a few chairs in it, wherein were emigrapted governly sollectors electer, waiting their turn to assess before the cardistree. PHOSPHATES IN BARRO POWING PROFIT OF White, State Chemit of George, gave this subject attention and wrote. "I have been familiar for a number of sears with the general character of Prof. Horsford a phosphatic proparational Broamt examinations used by the of his backing powder show it to be exactly what is a lamped for it. When maked by the of his backing powder is framed and remains in the bread whon bathed in ordinary cream tarter baking powders the suit time left in the bread after raising as roth ile sale—a double twitted. The phosphatic are useful substances in painted in utration and growth, the tarter size are not. Its my opinion, the phosphatic powder is, there force, preferable to the others so, for an health-lines is concerned."
